Answer key

Every answer carries the reason behind it. Read the reason for the questions you got right as well — that is where you find out whether you were right for the right reason.

A. Multiple choice

1. **C) His** — The owner is a man, so the possessive is his — regardless of what he owns.
2. **A) her** — Maria is female, so the possessive is her, even though the person owned is male.
3. **D) our** — Our comes before a noun; ours stands alone; us is an object pronoun.
4. **A) its** — Its is the possessive with no apostrophe. It's always means it is or it has.
5. **A) their** — Their is the possessive; there is a place word and they're means they are.
6. **C) your** — Your comes directly before a noun; yours would stand alone at the end of a question.
7. **C) He loves his wife.** — The owner is he, so the possessive is his — English never matches the possessive to the noun.
8. **B) their** — Two owners together take their.
9. **D) my** — My goes in front of the noun. Mine would replace the whole phrase: these glasses are mine.
10. **C) her** — She is the owner, so the possessive is her. Hers cannot come before a noun.

B. Fill in the blank

1. **His** — Jonas is a male name, so the possessive adjective is his.
2. **her** — Elena is female, so the possessive is her — the sex of the owner decides, not the noun.
3. **our** — The owner is we, so the possessive adjective is our.
4. **its** — Its is the possessive for a thing or animal, and it never takes an apostrophe.
5. **their** — Grandparents is plural, so the possessive is their.
6. **your** — Speaking to somebody directly gives your, and it comes straight before the noun.
7. **my** — The speaker is the owner, so the possessive adjective is my.
8. **his** — Ahmed is male, so his — even though the person owned is female.

C. Sentence building

1. **This is my younger sister.**
2. **Her office is on the third floor.**
3. **His parents live in Athens.**
4. **Our flight leaves at six tomorrow.**
5. **Their house has a big garden.**
